Speaking Engagements

Chuck Wolfe is a frequent local and national speaker on prominent urbanism, sustainability, environmental and land use topics. He has moderated panels, given presentations and chaired continuing legal education seminars across the nation.

BIO

Charles R. Wolfe, M.R.P., J.D. brings over 25 years of cutting edge experience in land use and environmental law and permitting, including the use of innovative land use regulatory tools and sustainable development techniques, assurance of SEPA and Growth Management Act compliance on behalf of both the private and public sectors and an excellent reputation for the successful redevelopment of infill properties under federal, state and local regulatory regimes.

DESCRIPTIONS

Preparing for Transit Oriented Development Based on legal work and research conducted in Washington State, hear about the challenges and opportunities of implementing transit oriented development in the American urban context.

Overcoming Barriers to Transit Oriented Development, Sustainable Communities, and Brownfields An expanded version of the basic Transit Oriented Development presentation examines related basics of sustainable communities in greater detail and addresses common associated issues in redeveloping contaminated property.

Real Estate Deals, the Path to Closure and Voluntary Cleanups A primer on how to minimize environmental risks in real estate deals.

The Basics of Land Use Law in the New Millennium A primer on land use basics, a decade into the new century.

Reclaiming the Urban Memory and Reading the Evolution of Places From streets to open space, and based on Chuck's recent articles, explore the role of world precedent in recreating today's urban environments.
